

Alpha solar container outdoor power

Overview

Outdoor system consist of a durable, external, weatherproof metal housing and an integrated, high-efficiency, solar central inverter Power PV. The design offers many advantages during transport, installation, and service thanks to its light weight and its small. The STORION-T50/100 10ft container is an AlphaESS standardized product for C&I application. The container has built-in batteries, EMS, PCS, fire extinguishing devices and other equipment. Customers can choose different capacity containers according to their needs to meet the required application. We help consumers store clean power, gain energy independence, hedge against raising utility rates and contribute to the reduction of carbon emissions on our planet. Energy storage is indispensable for grid integration of renewables and decarbonisation, and for energy security as well. The single source solution ensures smooth PV power plant operations, in close cooperation with the grid operator. 9 kWh per cabinet and scales to 6. Built as an integrated outdoor cabinet with liquid-cooled architecture, the Storion-LC 836. The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, enables rapid and mobile operation.
