

Asson solar s integrated energy storage cabinet smart distributor

Overview

EK photovoltaic micro-station energy cabinet is an integrated intelligent energy storage device designed for distributed energy scenarios. The outdoor energy cabinet supports hybrid configurations with solar + battery + grid or diesel generator. The 360° energy management system from E3/DC intelligently adapts power generation and consumption to actual and forecast demand. It enables solar self-sufficiency and the use of dynamic electricity tariffs, expandable and at no additional cost. The product integrates photovoltaic power generation, AlphaESS is able to provide outdoor battery cabinet solutions that are stable and flexible for the requirements of. The outdoor cabinet-type photovoltaic storage system, boasting a power rating of 100kW/200kWh, seamlessly amalgamates. The BSLBATT 200kWh Battery Cabinet utilizes a design that separates the battery pack from the electrical unit, increasing the safety of the cabinet for energy storage batteries. Envision's smart. Envision distributed storage system for buildings with the concept of "safety, simplicity and intelligence", is designed to produce, store and consume energy from the power grid and provide integrated energy management services for building users by solving the load challenges such as electric. The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, enables rapid and mobile operation.
