

Container generator offline

Overview

The Genset, also known as a Clip On Generator, is a handy unit that clips onto the chassis of a Reefer Container to provide power when an external source of power is not available, such as during transport. Our Gensets run on diesel, gasoline or gas. At CPS, we specialise in offering high-quality bespoke containerised generator sets ranging from 110kW to 3.5MW for Diesel, LPG, CHP, and NG Gas applications. Our containerised solutions are designed to provide optimal performance across various site conditions, ensuring excellent reliability for. ELCOS offers the possibility of installing power generators inside CONTAINERS Iso Range 20/20HC' - 30/30HC' - 40/40 HC' according to the customer's requirements. All the CONTAINERS can be silenced up to 50 dB (A) @ 7m. The box body adopts a detachable structure and is made of steel plates. The surface is sprayed with high-performance anti-corrosion and anti-rust paint. Whether you need a container generator unit, a fully integrated. Carrier's industry-leading PowerLINE Generator Sets are designed and built for continuous, unattended operation for all refrigerated containers transported by road or rail worldwide. The larger footprint of these units allows for more versatility from a manufacturing specification standpoint — we can easily equip your gen set with greater levels of sound.
