

Finland lithium battery pack OEM factory

Overview

Celltech is Finland's leading designer and manufacturer of battery systems and an importer of special batteries. Together with Nordic sister companies, Celltech Group is the largest player in the field in the Nordic countries. Celltech Group is a part of the Swedish technology. L7 Drive specializes in advanced lithium-ion battery systems for electric vehicles and energy management, utilizing a unique parallel connection technology that ensures optimal capacity and longevity. We are building a battery materials plant in Kotka, Southeast Finland, to support the electrification of traffic in Europe. The facility, in a former Nokia plant, is scheduled to start commercialisation around October-November in the municipality of Salo—. Sweco acts as a partner to a responsible European battery industry throughout the entire value chain: from the battery material production to the manufacturing, usage, and recycling of batteries.
