

Huawei Uzbekistan Outdoor Energy Storage Factory

Overview

Featuring a 400MW solar PV system coupled with a 1.3GWh energy storage system, this ambitious project is set to revolutionize sustainable energy solutions in hospitality. The Ministry of Energy of the Republic of Uzbekistan (referred to as: Uzbekistan) held a signing ceremony for the Huawei inverter supply contract for the implementation of the country's introduction of renewable energy projects. This project can power 170,000 households and the battery storage capacity is equivalent to 8,000 The energy storage station of Uzbekistan's Tashkent Solar Energy Storage Project, the largest electrochemical. The European Bank for Reconstruction and Development (EBRD) is contributing to Uzbekistan's objective of developing up to 25 GW of solar and wind capacity by 2030, by organising a facility of up to US\$ 229.
