

Lithium-ion energy storage battery manufacturer in Barbados

Overview

Founded in 2011, BSLBATT is a globally recognized lithium battery manufacturer specializing in advanced LiFePO₄ solutions for industrial, commercial, and energy storage applications. With over a decade of experience, we combine strong engineering capabilities with real-world expertise to deliver. The Offgen is our all-in-one energy storage solution for residential or commercial use. With increasing renewable energy access from solar PV, it now makes more sense to use all the energy you produce. Especially as feed in tariffs are decreasing globally. Our products include commercial and industrial energy storage systems, base station storage, residential energy storage, photovoltaic modules, HJ-HBL batteries, PV storage. After years of strategic planning and policy groundwork, the island nation is now executing the most ambitious battery energy storage system (BESS) deployment program in the Caribbean. With back-to-back national tenders totaling 210 MW of grid-scale storage, a thriving commercial and industrial. The Government of Barbados has officially launched a major procurement process for the country's first large-scale Battery Energy Storage Systems (BESS), aimed at transforming the national electricity grid and unlocking delayed renewable energy investments.
