

Lockheed martin energy solutions

Overview

As one of the nation's largest implementers of energy efficiency programs for utility customers, Lockheed Martin has a long history of providing a full range of energy solutions to government, commercial, and industrial sectors as well as state entities and utilities. – TRC Companies (“TRC”), a leading technology-enabled provider of end-to-end engineering, consulting and construction management solutions, has expanded its utility services capabilities with the close of the acquisition of Lockheed Martin Distributed Energy Solutions (“LM-DES”). Our 21st Century Security® solutions leverage our decades of experience maturing all elements of directed energy systems, including high energy lasers, beam control, adaptive optics, beam directors and thermal management systems. In 2023, Lockheed Martin leveraged ENERGY STAR® resources and best energy management practices to reduce energy consumption across its operations by more than 2%. The Lockheed Martin Corporation is an American defense and aerospace manufacturer. It is headquartered in North Bethesda, Maryland, United States.
