

Saint Kitts and Nevis Solar Panel solar Power Generation Project

Overview

The project introduces an innovative microgrid system at the St. Kitts Electricity Company (SKELEC) Transmission and Distribution Facility, integrating solar photovoltaic generation, battery energy storage, and advanced energy management technologies. Basseterre, Saint Kitts, April 02, 2026 (SKNIS): The Government of Saint Kitts and Nevis today, April 02, 2026, marked a significant milestone in its journey toward energy independence and sustainability with the official launch of the Green Energy Transition Demonstration Project. Kitts and Nevis: Prime Minister Dr. Terrance Drew has announced in a recent national address that the country is poised to go green with the launch of a solar energy and. (Press Secretary): The Government of Saint Kitts and Nevis and the St. The Project. BASSETERRE, St Kitts and Nevis and YVERDON-LES-BAINS, Switzerland, December 10, 2020 - The Government of St. Interested developers are asked to register on the utility's bidding portal to receive the request for proposals document.
