

Samoa undertakes solar module project

Overview

Samoa boosts solar power with a \$2.8M ADB loan, increasing capacity by 50% using bifacial modules, cutting diesel imports, and stabilizing energy costs. The Asian Development Bank (ADB) and Sun Pacific Energy Ltd (SPEL) have signed a US\$2.8M loan. From pv magazine Australia A AUD 1.2 million (\$850,000) clean energy project conducted in Samoa will bring 108 households and. Samoa has launched an ambitious renewable energy initiative aimed at reducing reliance on fossil fuels and transitioning to 100 per cent renewable electricity generation by 2025. The financing will upgrade and expand SPEL's Upolu Solar Farm—Samoa's first independent power producer (IPP)—by. The generated power will support the delivery of a reliable and sustainable power supply in Samoa, which will spur economic activity, benefitting commercial, industrial, and residential consumers.
