

San Jose's second batch of energy storage project investment

Overview

12, 2024 /PRNewswire/ -- esVolta, LP ("esVolta") today announced the completion of a \$110 million tax equity transaction with Greenprint Capital Management ("Greenprint") to finance the construction of the 300 MWh Hummingbird battery energy storage. NEWPORT BEACH, Calif. By storing excess energy for when it is needed most, Jewelflower provides flexibility that will be critical to deliver reliable, affordable power. Here are proposed projects of high interest that are proceeding through our development review process. These projects are of interest to many stakeholders; are impactful across one or more council districts; or are otherwise unique. See also our interactive map that provides a more extensive look. Installation of a 100-megawatt battery energy storage facility with extended construction hours, including Saturdays from 8:00 a. The facility will be connected to PG&E's Santa Teresa substation, which is located on a site adjacent to the Santa Teresa light rail station. The tax equity is intended to support.
